SAP Certified Application Associate – SAP S/4HANA Sourcing and Procurement C_TS450_1610

How to Prepare for Your Certification Exam

CUSTOMER

INTRODUCTION

The "SAP Certified Application Associate - SAP S/4HANA Sourcing and Procurement" certification exam verifies that a learner possesses the core knowledge in SAP S/4HANA procurement that is required to act as a consultant on projects in a mentored role.

Even though SAP S/4HANA is based on a new code-line compared to SAP ERP, the simplifications that were introduced with SAP S/4HANA do not change all basic business processes and their customizing. ERPPREP.COM is one of best and most recommended website for [C_TS450_1610 online practice exams](#)

In the SAP ecosystem, there are a lot of consultants coming with an SAP ERP background who are just upskilling to SAP S/4HANA by learning what's new/changed. Because of this, this certification is primarily targeted at this target group with solid fundamentals knowledge about SAP ERP sourcing and procurement processes and their customizing – and potentially are already certified as SAP ERP procurement consultants ([C_TSCM52_67 "SAP Certified Application Associate – Procurement with SAP ERP 6.0 EhP7"](#)).

In order make it easier for exam candidates to prepare for the certification the following information will provide more details about the knowledge that is required to successfully pass the exam, specifically related to those exam topics that did not change compared to ERP.

Please make sure to also consult the exam description and sample questions that are available on the SAP Training Shop, accessible via the following link: https://training.sap.com/shop/certification/c_ts450_1610

Topic	Learning Asset	Unit	Lesson
Reservations Processing	TSCM52_1_Col15	4	1
Special Forms of Procurement and Special Stocks	TSCM52_1_Col15	6	2
Process Goods Issues	TSCM52_1_Col15	5	1
Process Goods Receipts	TSCM52_1_Col15	2	1
Process Stock Transfers and Transfer Postings	TSCM52_1_Col15	3	1, 3

REQUIRED (DELTA) KNOWLEDGE FOR SAP S/4HANA SOURCING AND PROCUREMENT

SAP Education offers new SAP S/4HANA courses that are explaining what's new/changed compared to SAP ERP. Those are recommended as exam preparation because the following topic areas will make up about ~ 40% of the certification questions:

1. S4H01 – SAP Business Suite to SAP S/4HANA Delta

This course will help to understand the SAP S/4HANA essentials, such as the new user experience with SAP Fiori, the SAP HANA database concept, embedded analytics capabilities, as well as the usage of SAP best practices.

2. S4LG1 – Innovative Logistics Processes in SAP S/4HANA Enterprise Management

This course will provide insights into the simplifications introduced with SAP S/4HANA and describes aspects of materials requirements planning.

3. S4PR1 –SAP S/4HANA Procurement – Functions & Innovations

This course focuses on the new procurement processes in SAP S/4HANA, e.g. contract management, supplier classification and segmentation, supplier evaluation, supplier classification and segmentation, self-service requisitioning, purchase requisition processing. Moreover, you learn about the capabilities and options in the procurement process, sourcing options, procurement analytics, and master data management aspects (e.g. central business partners, material master).
